

State Procurement Office

Purchases of Health and Human Services Chapter 103F, HRS

Application

Chapter 103F applies to all contracts made by state agencies to provide health and human services to Hawaii's residents.

Definition of Health and Human Services

Services to communities, families, or individuals which are intended to maintain or improve health or social well-being through methods including, but not limited to:

- a) Assessment, treatment, diagnosis, prevention, and education services provided directly to a target clientele; or
- b) Insurance coverage for assessment, treatment, diagnosis, prevention, and education services to be provided to a target clientele.

Purpose

- To improve the State's process of disbursing funds for health and human services by providing a single public procurement process for both the state and providers to use.
- To optimize information-sharing, planning and service delivery efforts. Limited resources can be used more efficiently and cost effectively, thereby allowing more time and attention on planning and delivery of services.
